Re: Testimonial

Dear Greg,

We would like to take this opportunity to convey our pleasure in working with Greg Redington and everyone associated with REDCO Engineering & Construction Corp. on our Chevrolet of Morristown building. This was the eighth building project we have entrusted to REDCO and feel that they delivered an excellent value.

CONFIDENTIAL

In preliminary talks, we were impressed by frank discussions about construction materials, time, and costs. REDCO was realistic and their contract estimate was accurate. This particular project was a renovation so that made things a little more difficult – but the REDCO team worked with us every step of the way to maximize value without compromising quality. Employees were skilled and friendly; sub-contractors were professional and responsive – and everyone was willing to go the extra mile to get the job done.

We recommend REDCO Engineering & Construction Corp to anyone, but particularly anyone who wants to work with a great team that doesn't mind client input from time-to-time.

Cordially,

A handwritten signature in black ink, appearing to read "Stuart Lasser", is written over a circular stamp. The signature is fluid and cursive.
