Dear Greg:

I am writing this letter to tell you how pleased I was to work with REDCO on the reconstruction and redesign of my new car dealership. Your honesty and integrity gave me ease of mind from concept right through to completion.

I appreciated that you and your staff were very professional and always available to answer any questions and address all issues in a timely manner, and the personal interest that you took in the job made me feel like I was working with family and gave me peace of mind knowing that the construction was being done properly and to code.

The fact that you feel morally and ethically responsible for my building, for as long as I own it, makes a big difference to me. I never question the safety of the construction for myself or my employees working anywhere in the building.

I would gladly recommend REDCO to anyone seeking quality engineering, and beautiful design and construction.

Very truly yours,
