Re: Testimonial letter

Dear Greg:

My sons and I would like to take this opportunity to convey our pleasure in working with you and everyone associated with the REDCO Engineering & Construction Corporation on the addition to our industrial plant in Phillipsburg, New Jersey.

Every aspect of construction including the preliminary drawings, township meetings, final drawings, scheduling, actual construction, final grading to the final Certificate of Occupancy was done with total quality and professionalism. During all phases of construction plus continued support after completion, the relationship with the REDCO team has been excellent.

Your team strived to deliver the highest quality building addition for us, while being a pleasure to work with. We would have no problem or reservation in recommending your firm to anyone looking for a design-build contractor.

Again Greg, it was a pleasure working with you and your team. We are looking forward to having you work for us in the future.

Sincerely,

Dennis A. Losco SR  
President – Superior Quartz Products, Inc.
